

on the boards: eglin/cohen architects

Canyon Ranch Casita

Alliance Bank

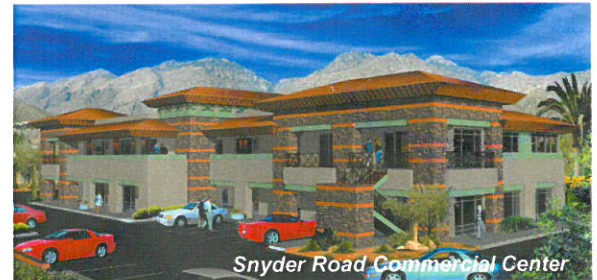

Beyond Bread

Evan Eglin and Jack Cohen embedded the roots for Eglin/Cohen Architects, P.C. in 1984. For over two decades these Architects and their astounding team have provided full Architectural services for a diverse clientele. They are driven by a steadfast force to pursue the utmost innovation and creativity, in conjunction with recognition of budgets and efficiency.

Signature buildings around Southern Arizona display the hard work attributed to the E/CA team. From historical buildings such as the Academy Lofts nearing completion in Armory Park to landmark centers such as Swan Corporate Center and Old Vail Station to restaurants like The Double UU Café at Canyon Ranch Health Resort and Beyond Bread, this team has consistently created high quality responsive solutions for their client's programs.

The E/CA team is currently providing their design expertise for projects that include the Embassy Suites at Campbell / Skyline; the Alliance Bank at Williams Centre; the Snyder Road Commercial Center; and the Innovation Corporate Center which will consist of 235,000 s.f. of multiple one- and two-story structures in Oro Valley. In May, the firm will relocate to their new office located at Tanque Verde Place, a 125,000 s.f. mixed-use center that they designed on Tanque Verde Road across from Udall Park.
